

Russian Academy of Sciences

**Shemyakin - Ovchinnikov Institute
of Bioorganic Chemistry**

17 December 2015

Laboratory of Biophysics

1st International meeting

***"Future of correlation Scanning-probe and
Light microspectroscopy"***

Dr. Konstantin MOCHALOV, Ph.D.

***"Correlative technique for the high resolution multiparametric
3D analysis of optical and morphological properties in the
bulk of nanomaterials"***

Nicolas Bogdan BERCU (France), Ph.D.

***"Near-field microscopy techniques for nanostructure
characterization: near-field IR, AFM nanomechanics,
SEM/TEM cathodoluminescence and Kelvin Probe Force
Microscopy"***

Dr. Anton EFIMOV, Ph.D.

***"3D structure analysis of biomaterials by scanning probe
nanotomography"***

Moscow, Russia
