Prof. T.V. Ovchinnikova
ovch@bk.ru

Dear Prof. Ovchinnikova,

I greatly appreciate your remembering my close association with Prof. Alexander Arseniev. I received the sad news about his passing from his NMR colleagues and I will never forget the important contribution that Alexander made during his stay as a scientific visitor in my Zürich laboratory. I only regret that the political circumstances prevented personal contacts between Prof. Arseniev and myself and during the last years of his life.

Best regards,

Prof. Kurt Wüthrich
