

Dear Colleagues!

We are very pleased to invite you to participate in the **International Conference "BIOMEMBRANES 2016: Mechanisms of Aging and Age-Related Diseases"**, which will be held at Moscow Institute of Physics and Technology (MIPT), Russia, Dolgoprudny on September 26-30, 2016.

Registration is opened

For more information, please visit our website
<http://biomembranes2016.ru>

A major goal of this conference is to provide up-to-date information about research on biomembranes and to consolidate cross-disciplinary international scientific efforts in this field. Our speakers will focus on cutting-edge problems of modern integrative structural biology of biomembranes and membrane proteins, theoretical biophysics of membrane systems and computer modelling. The conference will highlight the role of biomembranes in aging and age-related diseases such as cancer, neurodegenerative (Alzheimer's, Parkinson's) and cardiovascular diseases.

The talks will be given by world-leading scientists from Russia, USA, Germany, France, UK, China and Japan. Participants will have a great opportunity to update their knowledge interacting with world-leading scientists who will overview amazing recent advances in the fields under discussion.

We are looking forward to meeting you in Dolgoprudny,

BIOMEMBRANES 2016 will present keynote and invited talks as well as poster presentations. The registration deadline is August 26. **Students (including PhD students) are exempt from Fee.**

Attached please find the conference poster and feel free to send it to your colleagues and display in your organization.

sincerely yours,
Organizing Committee
